

The Henry Schein Portal powered by Med World Live, streams up to four camera angles simultaneously to capture every aspect of a product, procedure, or technique.

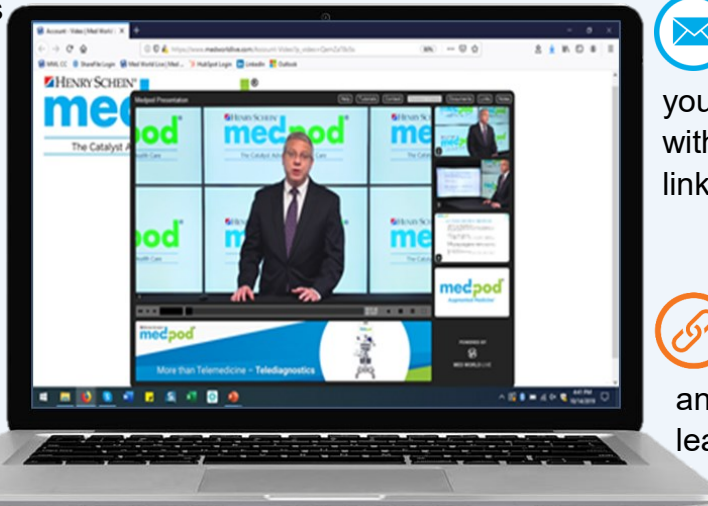

Each video is accompanied by supporting materials, ensuring access to not only the visual demonstration, but also relevant documentation and resources.

View and download related documents such as reimbursement information, white papers, sell sheets, etc.

View Short 1-angle clips such as KOL interviews and animations

Send emails directly from the portal to yourself or a colleague with the documents and links you need

Contact your local representative for more information about the product

Access links to company websites, product pages, and more information without leaving the portal

Navigate directly to key points in the video and preview a description or link out to a quiz
