

goodbye, closed system. hello, ecosystem.

At athenahealth, our vision is to create a thriving ecosystem that delivers accessible, high-quality, and sustainable healthcare for all.

athenahealth delivers the industry's most adaptable network-enabled service, designed to scale easily with business needs and keep practices on top of industry change and focused on patient care. Our four-part approach includes:

Proven expertise

that delivers an unparalleled customer experience, and can help improve clinical and financial outcomes

An open, connected network

that ensures our customers always have access to the best solutions and the right information

Modern, nimble technology

that keeps up with the pace of change

Insights from the network

that grow richer and more actionable with every provider who joins the platform

The scale and scope to support our customers and improve performance

160k+

providers served across all specialties

Metrics are inclusive company-wide.

Corporate Overview

athenaOne

Our comprehensive cloud-based solution for ambulatory care settings connects tens of thousands of providers on a single network.

athenaClinicals®

Our network-enabled EHR organizes the moment of care to help providers maximize clinical productivity and spend more time with patients.

athenaCommunicator®

Our network-enabled patient engagement tools provide a seamless experience that engages patients in their care and reduces work for your staff.

athenaCollector®

Our network-enabled RCM service provides scheduling, patient registration, and reporting capabilities, all while simplifying how you get paid.

athenaTelehealth

Our embedded telehealth solution enables HIPAA-compliant virtual consultations for athenaOne customers.

Population Health

Our service provides care management and coordination capabilities as well as risk contract management.

Health Plan Data Exchange

Our cloud-based data exchange service provides health plans with access to their members' clinical data in standardized, electronic, CCD format. This enables them to focus less on the burden of collecting member data and more on improving quality programs such as HEDIS, CMS Star ratings, and risk adjustment.

epocrates

The #1 medical reference app provides clinical decision support and drug interaction content for providers at the point of care.

athenaIDX™

Our revenue cycle management solution helps large practices, health systems, billing services, and hospitals get paid faster with less work and at a lower cost.

Combined Business Office (CBO)

Our single revenue cycle solution enables hospitals and large physician groups to improve efficiency, reduce redundancy, and optimize revenue capture enterprise-wide.

Billing and Accounts Receivable (BAR)

Our billing and receivables system lets large physician groups and billing services effectively manage financial data, obtain maximum revenue collection, and improve productivity.

Financial Risk Manager (FRM)

Our highly customizable, provider-focused solution helps organizations efficiently manage risk and control costs associated with managing patient population across a health system.

Enterprise Wide Scheduling (EWS)

Our robust appointment management capabilities help you coordinate and schedule appointment times, providers, resources, and locations throughout the enterprise.

athenaEDI™

Our integrated, clearinghouse solution manages all electronic information between the payer and the provider, ensuring efficient reimbursement operations via proactive monitoring and revenue cycle expertise. athenaEDI integrates with athenaIDX, athenaIDX™ for Group Management, and athenaPractice™.
