

The only way to improve waiting room throughput is to get patients to complete everything needed prior to arrival.

See results immediately

“Yosi has streamlined costs, time and reduced the amount of data-entry error. I highly recommend Yosi to others that want to streamline costs and time in the practice setting. The results were effective immediately!!!”

Ana Couto, MBA, Practice Founder  
Gotham Footcare

Integrate with your emr

“The Yosi team is extraordinarily responsive and allowed us to customize every aspect of our patient engagement, including SMS content, timing of reminders and patient registration forms. They worked rapidly to establish an interface with our EHR.”

Dr. Joshua Merok, M.D.  
Michigan Avenue Primary Care

Reduce no-shows

“After more than a month using Yosi our no-show rate has decreased 75% and our confirmation rate is up to over 60%. We went from having 10 no-shows a week to 0-2. It is saving us thousands of dollars a day.”

Dr. Clifford Bassett, M.D.  
Allergy & Asthma Care of New York

## What is Yosi Health?

Yosi is a pre-arrival focused patient intake and registration system that is eliminating wait times, improving patient experience and increasing financial results for large health systems and busy care centers by engaging patients right through their care journey - BEFORE, DURING and AFTER

## Benefits of Yosi Health:

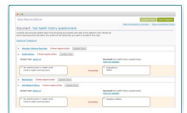

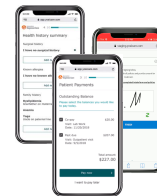

Care Centers like yours realize an ROI of **\$24k to \$48k** per provider per year.

### Yosi is:

- ✓ Reducing No-show rates by: **45%**
- ✓ Reducing Phone calls by: **70%**
- ✓ Reducing Paperwork by: **80%**
- ✓ Reducing Claim denials by: **15%**
- ✓ Increasing collection rates by: **20%**

## How does it work?

1. Schedule appointment in your EMR

2. Patient automatically receives text message & Email

3. Patient completes registration, sign forms and pays co-pay/past due balance

4. Everything is Imported into your EHR

## Automate your office workflow

By eliminating paper, clipboards, scanning and transcribing.

## Yosi is 100% customizable

Fully adapts to your intake workflow, questionnaire and forms.

## Generate additional revenue

By collecting standardized assessments, screeners for increased reimbursement.

## Reduce operational costs

By reducing no-shows, claim denials with direct EMR integration.

## Save time for patients and staff

1000's of man/woman hours each month by automation.

## Collect more patient side revenue

20% more collections rates for pre services payments.
