

Streamline Your Medical Inventory Management.

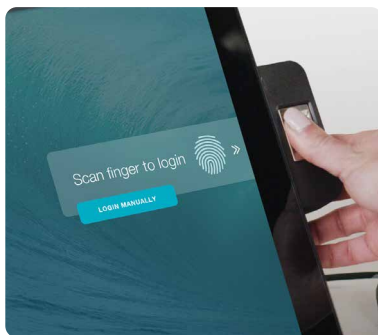

Manage your entire inventory efficiently and effectively with one easy-to-use solution for medications, samples, custom items and supplies.

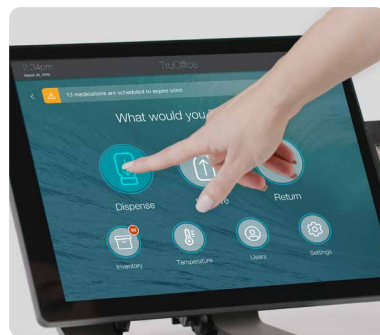

AccuShelf by TruMed simplifies inventory control, saves time, enhances patient safety, and optimizes costs with one easy-to-use solution. The AccuShelf Inventory Management System combines intuitive

workflows, comprehensive barcode scanning, EHR integration, and real-time data to deliver the ideal inventory tracking solution that supports high-quality care.

SIMPLIFY & STANDARDIZE WORKFLOWS

Biometric Secure Access

Streamlined Workflows

Wireless Barcode Scanning

Informative Graphical Interface

MANAGE YOUR ENTIRE STOCK EFFICIENTLY

- Track all medications, samples, supplies, vaccines, and custom items, with one solution.
- Capture item details, from lot and expiration to unit and package quantities, with included wireless barcode scanner.
- Identify and reorder low and out of stock items based on par levels and real-time usage.

This system has removed a lot of errors and has simplified our inventory management process. We resolve an inventory discrepancy in 10 to 30 minutes instead of days or weeks.

Chota Community Health

ENHANCE PATIENT SAFETY

- Ensure first to expire use and prevent administering expired items with a quick scan.
- Easily manage recalls with our recall monitoring system.
- Avoid look-a-like errors with images and vital information displayed on an intuitive graphical interface.

MANAGE ENTERPRISE INVENTORY

- Receive real-time alerts on low inventory and soon to expire items.
- Real-time inventory transparency across all locations.
- Support stock rotation with next to expire warnings when scanning.
- Quickly reallocate stock to high demand areas with site-to-site transfers.

Cloud-based, Enterprise level inventory management & analytics with AccuSite™.

Proactive alerts via text or email include low & expiring stock alerts.

Secure authentication with integrated biometric fingerprint reader.

24/7 customer support, warranty, and scheduled maintenance included.

ADDITIONAL OPTIONS

- **Reordering:** Reduce capital expenses and save hours in fulfillment time with TruMed's reordering services and on demand EDI.
- **EHR Integration:** Automatically transmit immunization orders between EHRs and AccuShelf, ensuring correct dose is dispensed and allowing accurate transcribing information.
- **340B Support:** Capture 340B item details to track every dose by invoice, payor, and provider.
- **Central Management:** Optimize central pharmacy workflows and ensure efficient stock allocation across multi-site facilities with electronic transfers and enterprise management.
- **Temperature Monitoring:** Add compliant digital data loggers to existing equipment for real-time temperature reporting and alerting.
- **Mobile Cart:** Mobile inventory workstation available.
